Business Systems and Data Analyst

Kelowna, BC | (236) 338-1654 | drishtant.shri98@gmail.com | [linkedin.com/in/drishtant-shri98](https://www.linkedin.com/in/drishtant-shri98)

SUMMARY

Business systems and data analyst with 4+ years spanning SAP enterprise support and end-to-end analytics delivery. Translates business questions into data rules, reporting logic, and decision-ready output, then defends the results to non-technical stakeholders. Recent work cut executive report preparation from four hours to 15 minutes and made monthly reporting reproducible in Python and PostgreSQL.

EXPERIENCE

Consultant, Data Analytics (Contract)

Jan. 2025 – Aug. 2026

Autonomic

Kelowna, BC

- Led end-to-end design of a four-page Power BI solution for a 90-day student wellbeing program, translating program rules into DAX measures, risk flags, and engagement segments across five core metrics
- Rebuilt the executive reporting workflow to cut preparation from four hours to 15 minutes per cycle, and surfaced a 23% reduction in participant stress that leadership had no prior way to measure
- Built a Python, PostgreSQL, and Docker monthly reporting pipeline covering schema setup, ETL loaders, and reproducible visual outputs, and documented the underlying data rules so results stayed consistent across cycles
- Partnered with leadership, program managers, and school stakeholders from discovery through readout, and proposed an AI roadmap covering sentiment analysis, participant clustering, and predictive insight

Consultant, SAP Cloud

Oct. 2020 – Aug. 2023

Larsen & Toubro Infotech Mindtree Limited

Mumbai, India

- Resolved 200+ ServiceNow tickets for the L'Oreal program at a 95% first-contact resolution rate, cutting average turnaround from 48 to 24 hours through structured triage and root cause analysis
- Supported an SAP on-premises to AWS migration, coordinating with technical teams and stakeholders through migration, integration, validation, and production support
- Gathered business and technical requirements and supported testing and UAT for SAP integrations and application enhancements; wrote the documentation that reduced team onboarding time by 30%
- Collaborated with vendors on SAP CPI and analytics integrations, and tuned ETL pipelines and SQL queries to improve reliability of enterprise data for downstream analysis

Research Assistant

July 2024 – Dec. 2024

Okanagan College

Kelowna, BC

- Built a Monte Carlo simulation evaluating circular economy scenarios, and synthesized 30+ research papers into practical recommendations for four local breweries

SELECTED PROJECTS

Emergency Department Revisit Forecasting | *Python, SQL, scikit-learn*

2025

- Developed a revisit prediction model at approximately 83% accuracy, translating a clinical planning question into a defined workflow, evaluation measures, and decision support output for an Interior Health academic project

MRI Demand and Capacity Analytics | *SQL, Power BI, Excel*

2025

- Integrated data across multiple systems to project MRI examination volumes by facility, producing a 22% volume increase forecast used to support capacity planning

EDUCATION

Okanagan College

Kelowna, BC

Post-Baccalaureate Diploma in Health Analytics, CGPA 8.7/10, Dean's List

2023 – 2025

Institute of Engineering and Technology, DAVV

Indore, India

Bachelor of Engineering in Electronics and Instrumentation

2016 – 2020

TECHNICAL SKILLS

Analytics & BI: Power BI, DAX, Power Query, Excel, data modeling, data quality, executive reporting

Data & Programming: SQL, Python, PostgreSQL, R, Docker, ETL workflows

Enterprise Systems: SAP application support, SAP CPI, SAP Analytics Cloud, ServiceNow, AWS

Business Analysis: Requirements gathering, data rules, technical documentation, testing and UAT, stakeholder communication

Certifications: Google Data Analytics Professional Certificate, AWS Certified Cloud Practitioner
